Perfect Management

PERFECT ORGANISATION IN THE OFFICE IS REFLECTED IN THE SPEED AND QUALITY OF THE SOLUTIONS USED. THE OLIVETTI JET-LAB 500 IS THE MULTIFUNCTIONAL FAX THAT DELIVERS EVERYTHING YOU NEED IN A SINGLE DEVICE, WITH THE QUALITY OF INK-JET TECHNOLOGY. IT CAN BE USED AS A PLAIN-PAPER FAX, A COLOUR PRINTER, A COPIER, A SCANNER AND, TO FINISH OFF, AS A PC/FAX. A NEW SERIES OF OPTIMISED DRIVERS ENHANCES ITS COLOUR PRINTING QUALITY TO ENSURE SUPERIOR RESULTS.

JET-LAB 500

smart new design

high-quality ink-jet printing with new colour print drivers

FAX AND PC FAX? PERFECT.

First of all, the Olivetti Jet-Lab 500 is a plain-paper ink-jet fax, with all the advantages of high-quality printing, even on recycled

paper. Its latest-generation functions include a 14,400 bps modem to keep transmission time to just 7 seconds per page, a 10-page automatic document feed, ECM protocol for automatic correction of transmission errors, scanning for 64 shades of grey. And if you connect the Jet-Lab 500 to your computer, you can send fax directly from the PC, or scan images and automatically attach them to outgoing emails.

COLOUR PRINTING? PERFECT.

The Olivetti Jet-Lab 500's new print drivers have been designed to ensure high-quality colour printing, an unprecedented capability for an office fax.

TELEPHONE? PERFECT.

The integrated telephone offers all the characteristics of state-of-the-art telephony, including, caller identification before you answer (CLIP function) and a practical agenda to store up to 84 fax and telephone numbers.

PHOTOCOPIER AND SCANNER? PERFECT.

The quality of ink-jet technology and a 64-level greyscale mean you can copy documents surprisingly fast. And if you want to store documents and images in the PC, the Jet-Lab 500 turns into a handy scanner to communicate with your operating system.

just 7 seconds for transmission at
14,400 bps
